EXPERIENCE

- July 2020 - 2022 **ACTICARE HEALTH, INC.** Livermore, CA
A newly established company offers a remote post-discharge monitoring system supporting transplant and VAD patients.
Lead Purchasing Coordinator
Held positions of increasing responsibilities in a fast-paced expanding organization of up to 40+ personnel. Elected multiple times to lead departmental projects.
Leadership
- Supervised the department during the absence of the team manager.
 - Improved work efficiency by 30% and quality control by facilitating training on procedures and regulations for new hires and existing team members.
- Strategy**
- Maintained 80% productivity by methodologically planning multi-departmental projects to accommodate daily task deliverables.
 - Improved and maintained multi-level communications with stakeholders by constructing and employing active logistical status reports on VAD, Medtronic HeartWare™ products, and monitoring equipment developments.
- Process Improvement**
- Provided a CRM process improvement model for the IT team department to design and implement an automation order status tracking system.
 - Drafted a Standard Operating Procedure (SOP) for departmental workflow maintenance and quality assurance, suggesting 5% cost improvements.
- Feb 2019 - May 2020 **AGGRETSC, LLC.** Tracy, CA
Start-up company that developed innovative concrete solutions for both interior and exterior applications.
Office Manager
- Maximized organizational productivity by 10%, fostering effective workflow/process improvement plans that made it possible to accommodate increasing responsibilities.
 - Managed floor-sample production schedules to meet tight deadlines for sales and marketing events averting possible delays.
 - Created a systematic warehouse staff weekly schedule of activities doubling work efficiency.
